Rock River Community Garden

Rock River Community Garden is located along West Riverview Drive at Garity Street on approximately one acre of land purchased in 2009 through the FEMA Flood Recovery Funds. This garden will provide people that may have limited outdoor space an opportunity to grow their own fresh food and enhance their health at the same time.

Community gardening provides common ground for people to grow their own vegetables or flowers, and build strong communities. Benefits of gardening include raising fresh produce and saving money, learning new gardening skills, as well as providing a venue for outdoors activity for families and individuals.

The garden is fortunate to have support from the Jefferson County Master Gardeners. They can be a great resource for any gardening issue as well as helping to beautify the area. They provide workshops on the third Thursday in March, May, July and September at 6-7pm at the gardens.

Individual plots will be approximately 10 x 10 in size. Compost bins will be available for disposal of weeds that have not gone to seed. A water supply will also be available on site. Gardens will be tilled if desired.

Please read the Garden Guidelines on the back of this form. If the guidelines are not followed, you will not be allowed to rent a plot for the following year. There is a $50 deposit which will be returned when the key is returned as well as the plot being clean and no weed notices given.
